

BUSINESS EXAMPLES

204 MOTOR CARRIER LOAD TENDER

204 BUSINESS EXAMPLES

Introduction

To develop these business examples, Lowe's Traffic Department created an actual 204 tender for every possible scenario in which we would tender a load. These examples contain the raw data that was created by our system. Only the following was changed: the carrier's EDI id has been changed to "SCAC", all names were changed to John Doe, and all phone and fax numbers were changed to 000-000-0000. Lowe's will send up to a nine digit purchase order number. To accommodate the increase in size, a 1234 was placed at the beginning of each purchase order number. Please note, in the G61 Segment, the Contact name/phone/fax is sent only if the information is available in our tables. If a name is not available, the word UNKNOWN will be sent.

We then verified that the information Lowe's needs sent back in the 210, was present in each 204 example.

The software we use to create our 204's is Manugistics. Currently, if a load is canceled in our system, Manugistics does not retain any detail information on that load. Therefore, the cancel 204 does not contain that detailed information either. Some of this information is mandatory on the 204. Our next upgrade of Manugistics should correct this problem. An example of a 204 cancellation can be viewed on page 32.

204 BUSINESS EXAMPLES
