

Canada Distribution Centre Information

Effective Date: 09/04/2013

An advantage for a Lowe's business partner is the broad geographic distribution which their products enjoy. Lowe's provides centralized distribution capabilities (regional distribution center) and access to transportation capacities through Lowe's established carrier network. These advanced logistics capabilities enable Lowe's to present your products for sale in markets which range in size from markets to the large metropolitan markets throughout Canada.

REGIONAL DISTRIBUTION CENTER (RDC) NETWORK - The purpose is to provide centralized distribution for stock merchandise which is cartoned and under eight feet in length.
