

Dear Vendor,

In early December 2010 we will be implementing some systems changes at our Lowe's Canada distribution center in Milton, ON. These changes will result in a change of our DC number. We change from DC Location 1415 to DC Location 1469. All other details will remain the same (address, hours of operation).

Please do not make any changes to your system at this time as Purchase Orders will continue to flow to you under DC Location 1415 for some time. An additional communication will be sent in early November to address more specific timelines on the system change, a short black out period to support the conversion, and invoicing requirements. If you believe you require more details prior to early November, please reach out to your Supply Chain Analyst

Thanks for your continued support.
