

Change My Access

All new LowesLink® users are automatically given access to **Lowes Store Lookup** and **Transportation Information** on their LowesLink® profile.

Once you have successfully logged in, the screen will look like:

Click **Change My Access** to request additional LowesLink® applications needed. **NOTE** – Not all applications will apply to each company. If in doubt about an application **do NOT** add it to your requested list.

Carefully read the requirements before selecting the applications needed and click **Submit**. **Do NOT** request applications multiple times. This could result in both requests being deleted.

NEVER STOP IMPROVING
Lowe'sLink®

Request Application Access

• = Required

User ID	bourob01
Vendor Type	Product
Already Assigned Applications	<div style="border: 1px solid #ccc; padding: 2px;"> Store Lookup Transportation Information </div>

• Available Applications

- Import Vendor Dart Lite - Lowe's Global Sourcing (LGS) vendor reporting to support business requirements. Import Vendor DART Lite is designed to assist import vendors who do not qualify for 'full' Vendor DART; based on approved sales volume thresholds.
- Lowes Service Team Images - Lowe's Service Team Images is a repository for store images, primarily for Merchandising projects, that can be viewed by Lowe's and Third Party groups
- Consignment Inventory Report - This application allows consignment vendors to view demand and stock for the items they have on consignment in a Lowe's facility.
- DART - Allows you to interact with the business intelligence systems to retrieve & analyze data. Flexible reporting includes a variety of metrics - Sales/Inventory/Turns/Fill Rate/SPM/SOS/InStock/Service Level. \$8 million in annual sales to qualify.
- DART Lite - This is for all Lowe's Live Goods vendors and provides access to vital information to support Lowe's business requirements. It is designed to support Live Goods vendors who do NOT qualify for full Vendor DART based on approved sales volume thresholds.
- Vendor Financial Information - Step 1) Select VFI button on this screen to request access Step 2) E-Mail completed VFI Authorization Form to EFTSetup@lowes.com - form located under Lowe'sLink menu - Existing Partner Information - Corporate Trade Payables - VFI Authorization.
- Marketing Data Tool - Marketing Data Tool
- Product Content Management - Choose this application if you are responsible for providing item setup information, product marketing data or images to Lowe's.
- Purchase Order Reservation - The PO Reservation application allows approved Reverse Purchase Order vendors that transmit the 855 Reverse Purchase Order EDI document to Lowe's to reserve a range of purchase order numbers to be used when transmitting the 855 into Lowe's PO system.
- Quality Assurance - For all product vendors
- SOS Web Forms - An EDI solution for smaller Special Order Trading Partners. This will allow you to receive orders from Lowe's and submit order statuses. If you plan to use the WebForms tool for invoicing, please register for EDI WebForms as well.
- Spend Management US - Enhances and streamlines purchasing and payment by automating PO & invoice processing for non-merchandise related products/services. Used for PO review/PO Acknowledgement/ASN (Advance Ship Notice) & to submit invoices and track payments.
- Tradestone Application - Provides our business partners access to the TradeStone application portfolio in support of our Imports business.
- TradeStone Information - Information for users that are utilizing the TradeStone Application.
- Vendor Category Management - Vendor Category Management
- Vendor Inquiry (Vendor) - Research payment remittance information by check or invoice, view and respond to problem invoices and deductions, and view Return to Manufacturer (RTM) item level details for both United States and Canada locations.
- Vendor Shipment Status - Will allow you to view by purchase order which Lowe's approved carrier has been scheduled to pick up a load if the freight is Collect. The purchase order is available after the load has been tendered to a carrier and the carrier has accepted the order.
- Web Form User - Provides our smaller Trading Partners with a low cost EDI solution. Receive orders, send reverse purchase orders (if applicable), send a summary level ASN, and submit invoices. This solution does not support system integration within your company.
- Weekly Snapshot Reporting - The Weekly Snapshot Reporting flat files are available weekly by RDC and Company level that provide Sales & Inventory metrics by item (SKU). Any vendor can request access but should be limited to those who do not qualify for Vendor Dart.

Submit

An Application Access Request Submitted email will be sent. This email can be deleted.
