

**Re: California's New Proposition 65 Warning Requirements  
Information & Expectations for Lowe's Private Brand Vendor Partners**

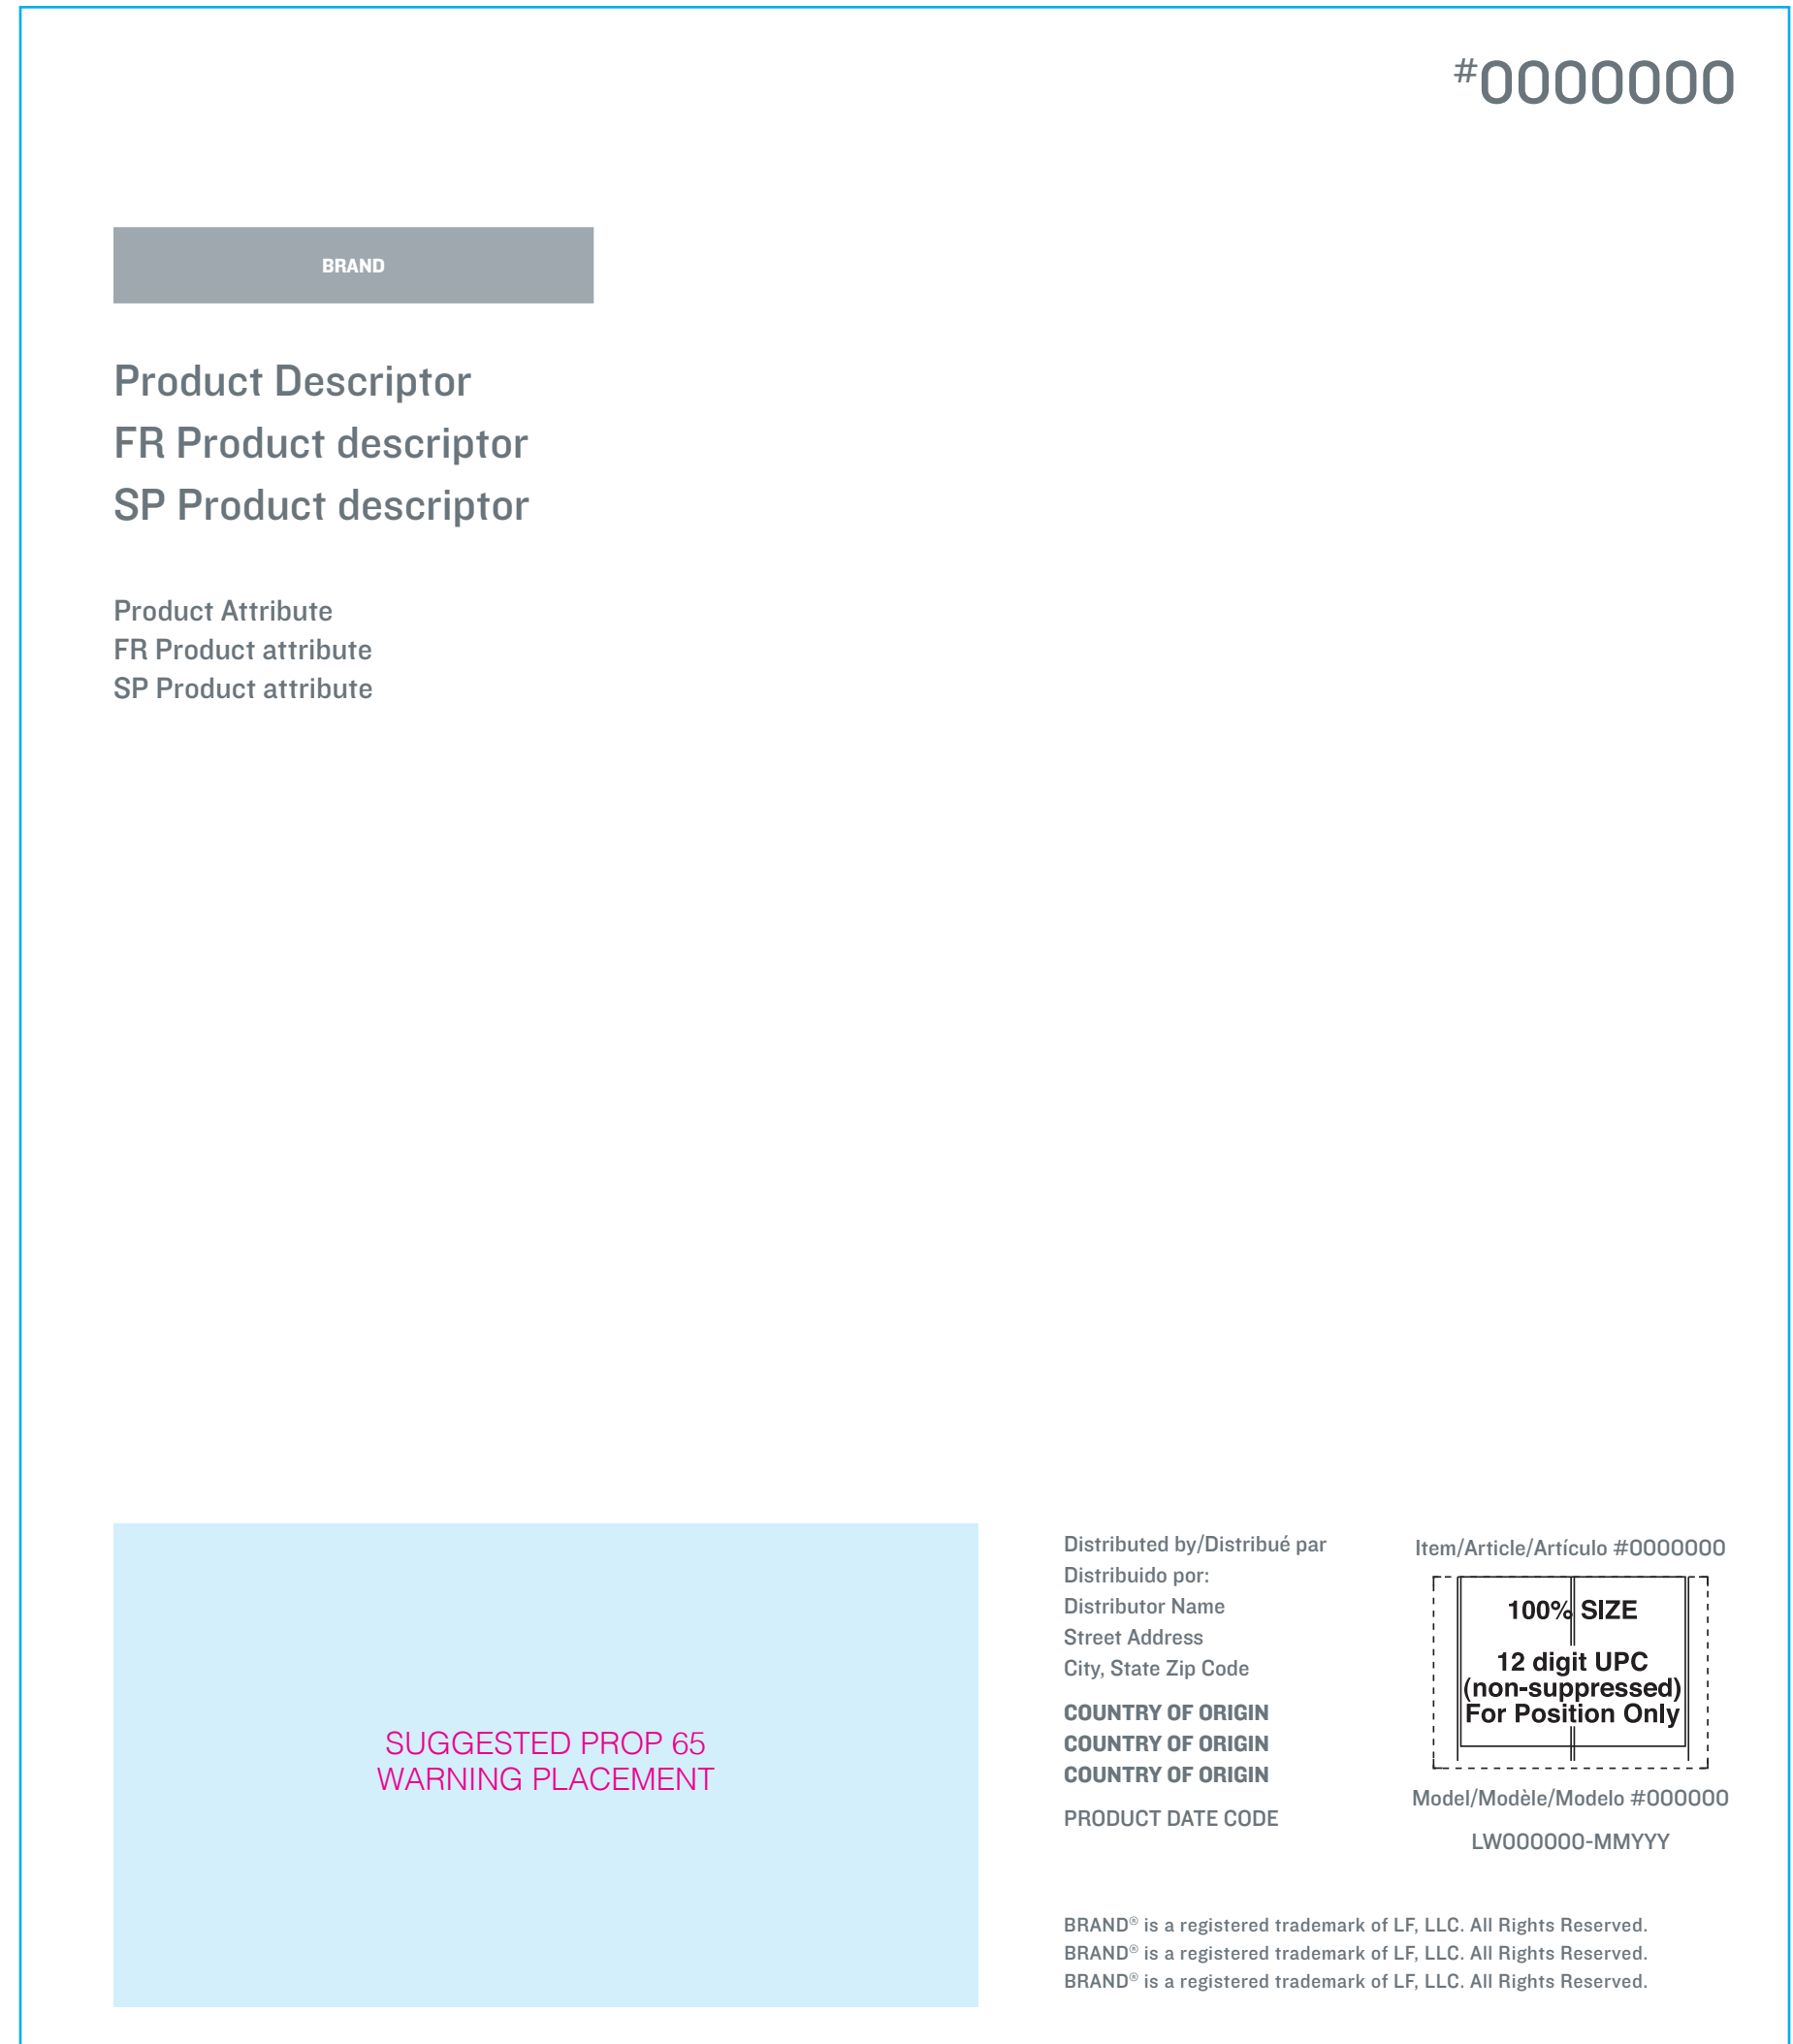

For your convenience, we are enclosing guidance to assist you with the placement of warnings on your Proprietary Packaging. The template provides design suggestions for the placement of general consumer product warnings (as required by 27 CCR 25602). Please note, however, that you are responsible for your own independent evaluation of warning requirements imposed by the new regulations and the template is not comprehensive. The template does not, for example, address the tailored notice requirements required for those specific products identified in the regulations (e.g., for those products identified in 27 CCR 25607 et seq.). To illustrate this issue, the new regulations provide certain tailored warning requirements specific to furniture products that may require warnings in locations beyond those specified in the enclosed template (see 27 CCR 25607.12, 25607.13). The regulations providing the revised Proposition 65 warning requirements – including the tailored warning requirements for some specific categories of products – are available at <https://oehha.ca.gov/proposition-65/law/proposition-65-law-and-regulations>. We recommend that you consult your own legal counsel to evaluate warning requirements for your products under the revised Proposition 65 regulations.
