

1000 Lowe's Blvd. Mooresville, NC 28117

February 2009

Dear Potential or Current Lowe's Supplier:

At the request of our vendor community, below is a list of third party solution providers that can help you be successful with data synchronization. These third parties were evaluated based on their technical capabilities, customer service, and data performance.

The first step is to select a data pool and register with GS1 (www.gs1.org). Lowe's preferred GDSN data pool is 1SYNC (www.1sync.org). Working with a solution provider is optional.

Hosted Solution Providers

1SYNC IM (www.1sync.org)

IDEA (www.idea-esolutions.com)

Behind the Firewall Providers

Lansa (www.lansa.com)

NuBridges (www.nubridges.com)

For additional information please refer to www.1sync.org. For a listing of third party companies that provide data management and processing services on top of general publication needs, please refer to our Third Party Company Contact List at <http://www.loweslink.com/VendorDataSynchronization.htm>.

For questions, please contact Lowe's at <http://lowespcm.ecusthelp.com>.
