

EDI 211 Routing Requirement
(as stated in the Routing Guide)

E-BILL of LADING (EDI 211):

Lowe's will be requiring all Vendors to submit an EDI 211 document (EBOL) to Lowe's LTL Core Carriers for every shipment by July 31st 2007. **Vendors should NOT contact the Lowe's EDI team as this exchange is directly between Lowe's Vendors and the appropriate Lowe's LTL Core Carrier(s).** EDI contact information is included on the *Lowe's LTL Carrier Contact Information* document on LowesLink.com. Vendors that are not EDI capable must use the LTL Core Carrier's website to create a BOL for each shipment that includes all Lowe's purchase order numbers. Questions about this policy can be directed to the Lowe's LTL Transportation Analysts on the Transportation Hotline (336)658-7300 or emailed to transportation@lowes.com.
