

How can I determine the cartridge number if I lost my installation book?

Tub/Shower

Series 01-Three handle with diverter in the middle from 1997 on: 910-030.

Series 03-Two handle tub/shower combination, 1997 on: 910-030.

Series 05-Two handle tub only: 910-030.

Series 07-Two handle shower only, 1997 on: 910-030.

Series 02-Two handle pressure balancing, right side temperature control, left side flow control (910-900): 974-291 cartridge, 971-250 stem assembly.

Series 04-Three handle pressure balancing, right side temperature control (974-291) cartridge, left side flow control (910-900 cartridge), Middle diverter stem.

Series 08-Single handle turns counter clockwise to activate water and changes from cold to hot, older models before 1995 (has 2 screws holding plate) uses 974-491 cartridge. If model has 4 screws holding inside stem assembly in place use 971-150 stem assembly with metal stem. If 5 screws- use 974-560 stem. Newer models (1995 on) use 974-291 cartridge and 971-250 stem assembly with white plastic stem. NOTE: Parts are not interchangeable.

Series 09 uses 974-292 cartridge (the 09 Series faucet has a pull handle to activate the water flow).
