

LowesLink® How to Request Applications

From the LowesLink® landing page the vendor user can request access to other LowesLink® applications by clicking on the Access tab on the landing page as show below:

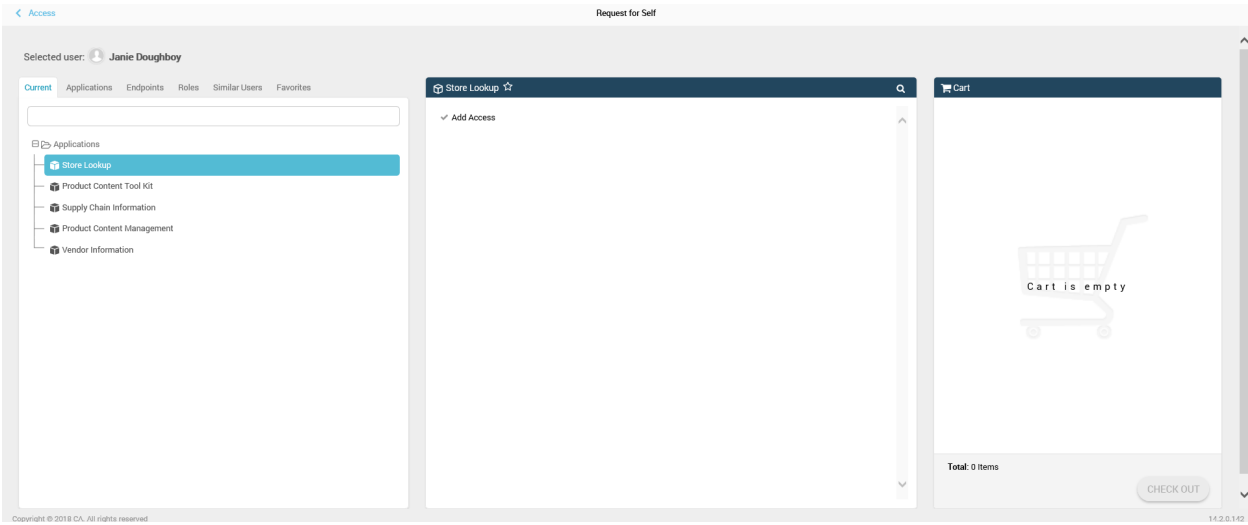

On the next screen, the user needs to choose the "Request for Self" option as shown below:

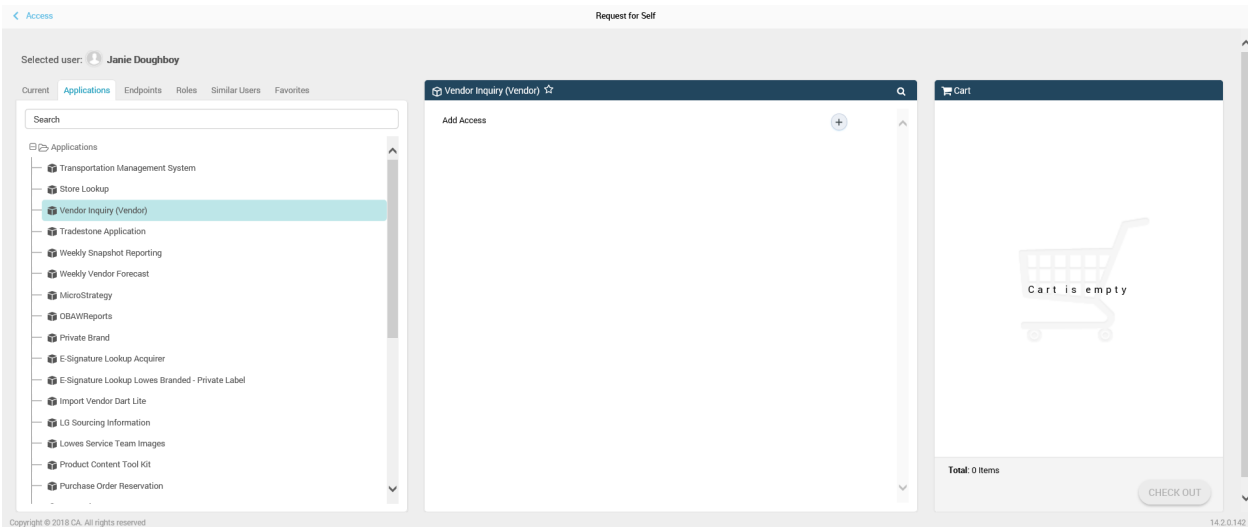

How to Request Applications, Continued

On this screen, under **Current** the user sees the applications they already have access to:

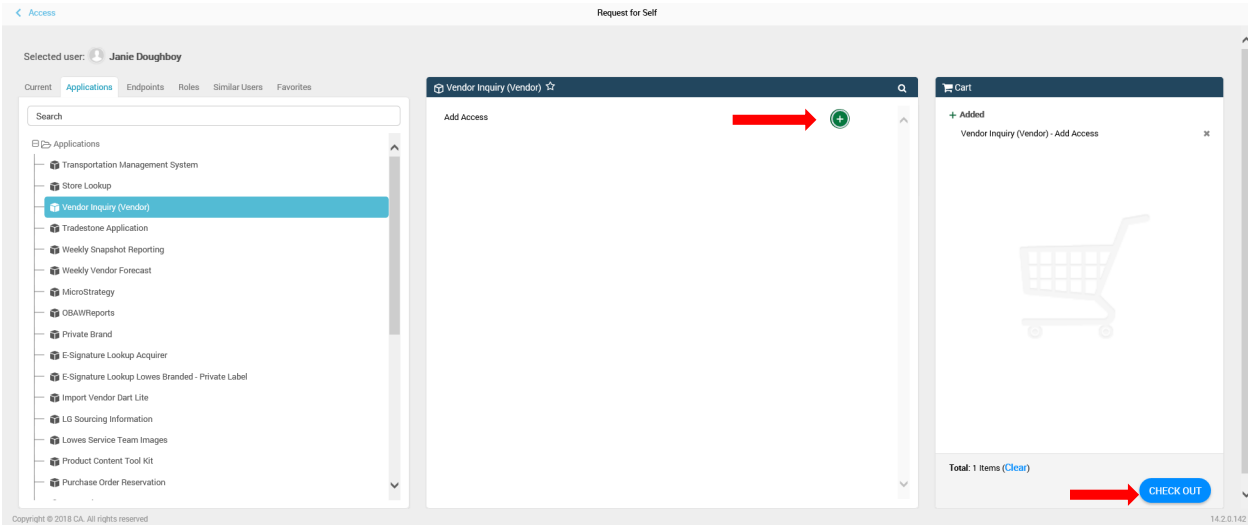

The user needs to click on the **Applications** tab to view the applications they could request access to based on their Vendor Type. **NOTE:** Not all applications will apply to each company. If in doubt about an application **DO NOT** add it to your requested list.

Note: This tab will have the applications the user already has access to as well.

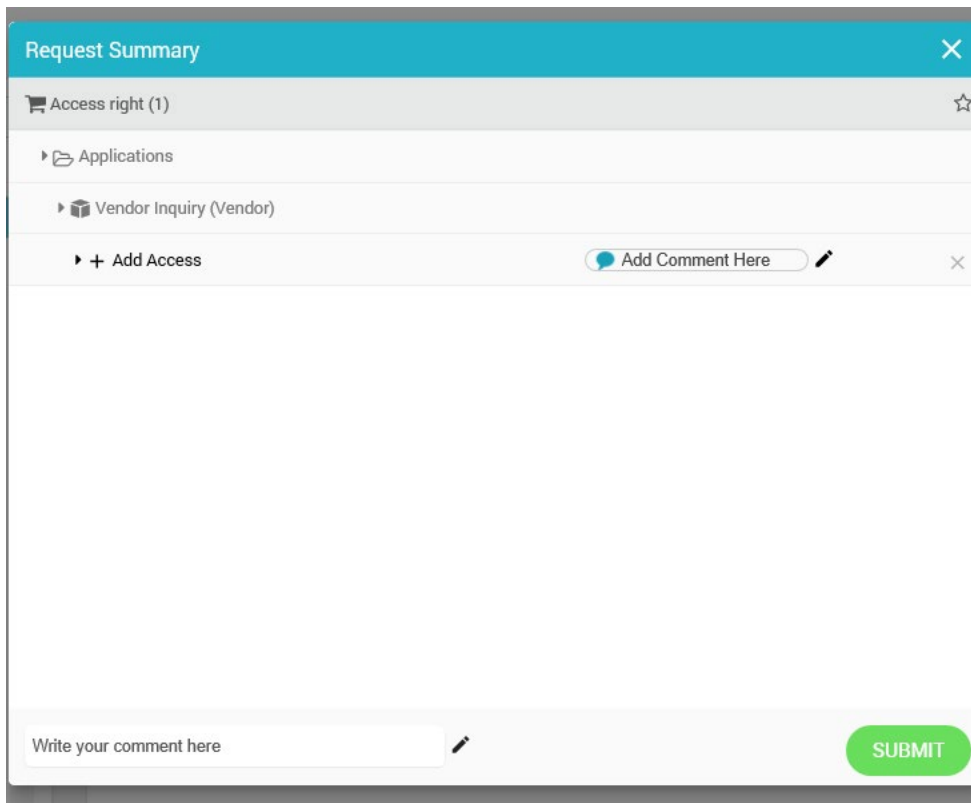

How to Request Applications, Continued

The user can choose the application and click on the + to add to cart and click on “Check Out” to submit a request for that application:

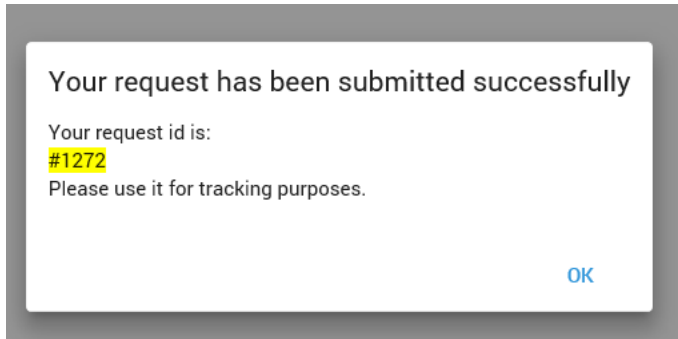

Click Submit

How to Request Applications, Continued

Once submitted this message will appear:

An Application Access Request Submitted email will be sent letting you know your LowesLink® application request has been received and is being reviewed. This email can be deleted.

Application Access Request Submitted
